CONTENTS—Volume 257

January, 1969

Cardiac Function in Acromegaly 1
E. Z. Hirsch, J. G. Sloman and F. I. R. Martin

Re-Examination of the Hemodynamics of Hypertension 9
E. D. Frohlich, R. C. Tarazi and H. P. Dustan

Fluctuations in Serum Cholesterol Levels in the Monkey 24
G. J. Alexander and L. M. Kopeloff

The Source of Albumin in the Thoracic Duct Lymph in Patients with Portal Hypertension and Ascites 32
J. L. Boyer, W. C. Maddrey, A. K. Basu and F. L. Iber

A Study of the Combined Role of Viruses, Mycoplasmas and Bacteria in Adult Pneumonia 44
M. Fiala

Lidocaine for Ventricular Arrhythmias in Acute Myocardial Infarction . . 52
M. Malach, J. B. Kostis and J. L. Fischetti

Aortic Flow Velocity and Acceleration as an Index of Ventricular Performance During Myocardial Infarction 61
P. Kezdi, E. L. Stanley, W. J. Marshall, Jr. and R. K. Kordenat

Book Reviews 72

February, 1969

Editorial: The Place of Medium Chain Triglycerides 75
J. R. Senior

Left Ventricular Function During Angiocardiography 81
R. A. Carleton and J. G. Clark

The Histologic Spectrum of Proximal Duodenal Biopsy in Adult Males . . 90
E. V. Gear, Jr. and W. O. Dobbins, III

A Semi-Quantitative Total Body Skin Culture Technique for Patients in a Protected Environment 100
G. P. Bodey, A. Kim and E. Bowen

Cephalothin and Cephaloridine: Comparative Pharmacodynamics in Chronic Uremia 116
R. L. Perkins, E. J. Smith and S. Saslaw

Penetration of Cephalothin and Lincomycin into the Cerebrospinal Fluid 125
P. I. Lerner

Lack of Correlation Between Blood Glucose and Ammonia Concentrations 132
H. O. Conn and S. G. Elkington

The Single Breath Carbon Dioxide Washout Test 140
B. J. Sobol, C. Emirgil, P. Goyal and F. Garcia

Book Reviews 152

March, 1969

Serum "Angiotensinase Activity" and Female Steroidal Hormones . . . 155
G. D. Lubash, R. H. Bard and J. A. Kline

Validation of Dextran Blue as a Dilution Indicator in the Stomach . . . 164
G. Moore, Z. Shehadeh and E. D. Jacobson

Quantitation of Pulmonary Emphysema 171
A. N. Longfield and W. Hentel

Serial Ultracentrifugal Analyses of Sera During Therapy of Primary Macroglobulinemia 177
R. B. Guy, L. C. Kutscha and E. L. Lozner

Clinical Pharmacological Studies of Carbenicillin 185
G. P. Bodey, V. Rodriguez and D. Stewart

Gentamicin Therapy of Paracolobactrum Epidural Abscess and Meningitis 191
M. Rubenfire, H. H. Gass, A. S. Goldstein and A. M. Lerner

Brief Scientific Communication

The Influence of Chondrocyte Metabolism on the Action of Hyaluronidase 198
A. J. Bollet and A. R. Mitchell

Book Reviews 202

April, 1969

Determination of Effective and Total Coronary Blood Flow Using Rb^{84} . . 203
G. Leb, F. Derntl, N. Goldschlager, C. Cowan and R. J. Bing

Discordance Between the Electrocardiogram and ATP Levels in the Isolated Rat Heart 218
J. Scheuer and S. W. Stezoski

Effect of Selective Coronary Arteriography on Myocardial Blood Flow in the Intact Dog 228
R. P. Carson, W. J. Weber and W. S. Wilson

Intestinal Uptake of Valine in Obesity 234
M. Steiner, H. R. Bourges, G. C. M. Farrish, J. R. Ross and S. J. Gray

Pathology of Internal Viscera Following Laser Irradiation 242
Y. Laor, C. L. Simpson, E. Klein and S. Fine

Fatal Late Postpartum Intravascular Coagulation with Acute Renal Failure 259
E. Rosenmann, A. Kanter, R. A. Bacani, C. L. Pirani and V. E. Pollak

Urban-Rural Differences in Mortality from Ischemic Heart Disease. . . . 253
J. Sigurjonsson

Book Reviews 274

May, 1969

Studies of "Benign" Serum M-Components 275
R. C. Williams, Jr., R. C. Bailly and R. B. Howe

Antibody Activity of Normal and Pathological Gamma Globulin Fractions of Sera Containing Rheumatoid Factor-Cryoglobulin 294
V. Balázs and M. M. Fröhlich

Zinc Deficiency in a Patient with Retarded Growth, Hypogonadism, Hypogammaglobulinemia and Chronic Infection 305
V. Caggiano, R. Schnitzler, W. Strauss, R. K. Baker, A. C. Carter, A. S. Josephson and S. Wallach

Congenital Aneurysm of the Coronary Artery with Myocardial Infarction 320
E. A. Cafferky, D. W. Crawford, A. F. Turner, F. Y. K. Lau and D. H. Blankenhorn

Treatment of Influenza. The Therapeutic Efficacy of Rimantadine HCl in a Naturally Occurring Influenza A2 Outbreak. 328
S. Rabinovich, J. T. Baldini and R. Bannister

The Effect of Low Molecular Weight Dextran on the Viscosity and Suspension Characteristics of Blood 336
S. Eisenberg

Clinical Application of a Simple, Specific Bioassay Technique for Measuring Renin Activity 344
J. N. Cohn and A. V. Notargiacomo

Book Reviews 352

June, 1969

Editorial: Fragmentation and the "Freakish" Poikilocyte 355
W. N. Jensen

Immediate Post Exercise Vital Capacity: A Measure of Increased Pulmonary Capillary Pressure 365
G. W. Parker and R. Gorlin

Cardiac and Pulmonary Function at the Exercise Breaking Point in Cardiac Patients 370
R. Gilbert and J. H. Auchincloss, Jr.

Random Dosage of ^{131}I in the Treatment of Hyperthyroidism: Results of a Prospective Study 382
T. G. Skillman, E. L. Mazzaferri and G. Gwinup

Diazepam and Thyroid Function: A Double-Blind, Controlled Placebo Study in Normal Volunteers Showing No Drug Effect 388
E. L. Mazzaferri and T. G. Skillman

Comparison of Cephalothin, Cephaloridine, Cephalexin and Cephaloglycin in Streptococcal Infections in Monkeys 395
S. Saslaw and H. N. Carlisle

Carbenicillin Therapy of Gram-Negative Bacilli Infections 408
G. P. Bodey, V. Rodriguez and J. K. Luce

Brief Scientific Communication

Pancreatic Glucagon Secretion in Normal and Diabetic Subjects 415
E. Aguilar-Parada, A. M. Eisentraut and R. H. Unger

SUBJECT INDEX

A

Acromegaly
heart function in, 1-8
Acute Renal Failure
fatal late postpartum intravascular coagulation in, 259-273
Adenosine Triphosphate
levels in isolated rat heart, relation to ECG recording, 218-227
Adenovirus
isolation from patients with bacterial pneumonia, 44-51
Alanine Aminotransferase
serum activity in pregnant women, 155-163
Aldosteronism
hypertension and hemodynamics in, 9-23
Ammonia
blood level, effect of glucose administration on, 132-139
Ammonium Chloride
effect on blood glucose level, 132-139
Anemia, Sickle Cell
poikilocytes and sickle-unsickle process, 355-364
Angiography
angiocardiography, left ventricular function in dogs during, 81-89
effect of selective coronary arteriography on myocardial blood flow in dogs, 228-233
Angiotensin Amide
increased degradation rate in pregnant women, 155-163
Angiotensinase
serum activity in relation to female steroidal hormones, 155-163
Anti-Arrhythmic Agents see Myocardial Depressants
Antibiotics
carbenicillin pharmacology in patients with metastatic cancer and leukemia, 185-190
carbenicillin therapy of gram-negative bacilli infections, 408-414
cephalexin and cephaloglycin therapy of streptococcal infections in monkeys, 395-407
cephaloridine, pharmacodynamics in chronic uremia, 116-124
cephaloridine, therapy of streptococcal infections in monkeys, 395-407
cephalosporin antibiotics, comparison against streptococcal infections in monkeys, 395-407
cephalothin, pharmacodynamics in chronic uremia, 116-124
Antibiotics *(continued)*
cephalothin levels in serum and CSF after i.v. injection, 125-131
cephalothin therapy of streptococcal infections in monkeys, 395-407
gentamicin therapy of Paracolobactrum epidural abscess and meningitis, 191-197
lincomycin levels in serum and CSF after i.m. injection, 125-131
therapeutic use of, 353
Antibodies
activity of gamma globulin fractions of sera containing rheumatoid factor, 294-304
Antiviral Agents
rimantidine therapy of influenza A2, double-blind study, 328-335
Aorta
flow velocity and acceleration, in dogs with myocardial infarction, 61-71
Arginine
infusion into normal and diabetic subjects, effect on pancreatic glucagon secretion 415-419
Arrhythmia
ventricular, therapy with lidocaine in myocardial infarction, 52-60
Ascites
ascitic fluid albumin transfer into thoracic duct lymph in portal hypertension with, 32-43
Aspartylnaphthylamide
increased hydrolysis rate in pregnant women, 155-163

B

Bacteriological Techniques
assessment of skin contamination in leukemia patients in patient isolator units, 100-115
Biological Assay
of renin on rat ascending colon preparation, 344-351
Biopsy
of proximal duodenum, histologic findings, 90-99
Blood see also Erythrocytes
alanine aminotransferase activity in pregnant women, 155-163
ammonia level, effect of glucose administration, 132-139
angiotensinase activity in relation to female steroidal hormones, 155-163
aortic flow velocity in dogs with myocardial infarction, 61-71

Blood *(continued)*
cephalothin levels after i.v. injection, 125-131
cholesterol level fluctuations in monkeys, 24-31
cholesterol levels in normal subjects, effect of diazepam on, 388-394
lincomycin levels after i.m. injection, 125-131
renin activity, bioassay on rat ascending colon preparation, 344-351
renin activity in pregnant women, 155-163
somatotropin levels in acromegaly, 1-8
suspension characteristics, effect of low molecular weight dextran on, 336-343
thyroxine and triiodothyronine levels in euthyroid subjects, effect of diazepam on, 388-394
viscosity, effect of low molecular weight dextran on, 336-343
volume in acromegaly, relation to cardiac index, 1-8
Blood Coagulation Disorders
fatal late postpartum intravascular coagulation with acute renal failure, 259-273
Blood Glucose see also Glucose Tolerance Test
effect of ammonium chloride administration on, 132-139
Blood Proteins see also Gamma Globulin
monoclonal M-components in patients with various diseases, 275-293
Brain
electrical activity of, mathematical analysis, 274
postcraniotomy epidural abscess, therapy with gentamicin, 191-197

C

Carbohydrate Metabolism
in patient with congenital aneurysm of coronary artery with myocardial infarction, 320-327
Cardiovascular System see also Heart
physiology of, 352-353
Cartilage
chondrocyte metabolism, influence on hyaluronidase action, 198-201
Cerebrospinal Fluid
cephalothin and lincomycin levels after i.v. and i.m. injections, 125-131
Chemotherapy
principles of, 353
Cholesterol
blood levels in normal subjects, effect of diazepam on, 388-394
serum level fluctuations in monkeys, 24-31
Chondroitin sulfate
digestion from cartilage in vitro in presence and absence of hyaluronidase, 198-201
Chromatography, Gas
theory and application of, 152-153
Computers
analysis of electrical activity of brain, 274
Contraceptives, Oral
effect on α-L-aspartyl-β-naphthylamide hydrolysis in women, 155-163
Coronary Vessels
congenital aneurysm of coronary artery with myocardial infarction, 320-327
effect of selective coronary arteriography on myocardial blood flow in dogs, 228-233
effective and total blood flow, determination with rubidium-84, 203-217
Cryoglobulins
antibody activity of gamma globulin fractions of sera containing, 294-304
Cyclophosphamide
therapy of macroglobulinemia, ultracentrifugal analysis of serum during, 177-184

D

Densitometry
for quantitation of lung destruction in emphysema autopsy specimens, 171-176
Dextran
low molecular weight dextran, effect on viscosity and suspension characteristics of blood, 336-343
Dextran Blue
validation as dilution indicator in stomach, 164-170
Diabetes Mellitus
pancreatic glucagon secretion in, 415-419
Diagnosis, Laboratory
illustrated manual of, 153-154
Diatrizoate
intracoronary injection, effect on myocardial blood flow and cardiac output in dogs, 228-233
Diazepam
effect on thyroid function in normals, double-blind study, 388-394
Dimethisterone
causing increased hydrolysis of α-L-aspartyl-β-naphthylamide in normal males, 155-163
Diplococcus pneumoniae
isolation from pneumonia patients, role of viruses and mycoplasmas, 4-51
Dye Dilution Technique
validation of dextran blue as dilution indicator in stomach, 164-170

E

Electrocardiography
in acromegaly, 1-8
practical aspects, 73
relation to ATP levels in isolated rat heart, 218-227
Electroencephalography
mathematical analysis of recordings, 274
Erythrocytes
aggregation and rouleaux formation, effect of low molecular weight dextran on, 336-343

Erythrocytes *(continued)*
poikilocytes and sickle-unsickle process, 355-364
Escherichia coli Infections
carbenicillin therapy of, 408-414
Ethinyl Estradiol
causing increased hydrolysis of α-L-aspartyl-β-naphthylamide in normal males, 155-163
Exercise
cardiac and pulmonary function in cardiac patients at breaking point in, 370–381
vital capacity in mitral stenosis patients immediately after, 365-369

F

Fetus
physiological studies and changes at birth, 152
Fluoxymesterone
therapy of macroglobulinemia, ultracentrifugal analysis of serum during, 177-184

G

Gamma Globulin see also Hypogammaglobulinemia
antibody activity of fractions of serum containing rheumatoid factor, 294-304
Gastric Secretion
rate in relation to findings from proximal duodenal biopsies, 90-99
Geriatrics
surgery of aged and debilitated patients, 202
Glucagon
secretion by pancreas in normal and diabetic subjects, 415-419
Glucose Tolerance Test
effect on blood ammonia concentrations, 132-139
Goiter
therapy with random dosage of radioiodine, 382-387
Growth Retardation
in patient with zinc deficiency, hypogonadism, hypogammaglobulinemia and intestinal parasites, 305-319

H

Heart see also Coronary Vessels; Myocardium
catheterization, potential hazards of, 72
function and status in acromegaly, 1-8
function at exercise breaking point in cardiac patients, 370-381
isolated perfused rat hearts, relation of ECG to ATP levels, 218-227
left ventricular function during angiocardiography in dogs, 81-89
pathological effects of laser irradiation in mice, 242-252
ventricular performance evaluation in dogs with myocardial infarction, 61-71
Heart Diseases see also Arrhythmia; Mitral Valve Stenosis; Myocardial Infarct
cardiac and pulmonary function at exercise breaking point in, 370-381
congestive failure, immediate post exercise vital capacity in, 365-369
enlargement in acromegaly, 1-8
enlargement in hypertension, hemodynamics in, 9-23
ischemic, urban-rural mortality differences in Iceland, 253-258
Hemodynamics
aortic flow velocity and acceleration in dogs with myocardial infarction, 61-71
effects of coronary arteriography on, 228-233
immediately after exercise in mitral stenosis patients, 365-369
in hypertension, 9-23
Hepatolenticular Degeneration
international symposium on, 154
Herpesvirus hominis
isolation from patients with bacterial pneumonia, 44-51
Hyaluronidase
influence of chondrocyte metabolism on action of, 198-201
Hypertension
hemodynamics in various types and stages of, 9-23
portal with ascites, source of albumin in thoracic duct lymph in, 32-43
renal, bioassay of renal vein renin activity in, 344-351
renal, hemodynamics in, 9-23
Hyperthyroidism
therapy with random dosage of radioiodine, 382-387
Hypogammaglobulinemia
in patient with zinc deficiency, retarded growth, hypogonadism and intestinal parasites, 305-319
Hypogonadism
in patient with zinc deficiency, retarded growth, hypogammaglobulinemia and intestinal parasites, 305-319
Hypothyroidism
incidence after radioiodine therapy of hyperthyroidism in various dosages, 382-387

I

Immunoglobulins
"benign" serum M-components, 275-293
Infant, Newborn
fetal physiology and changes at birth, 152
Infectious Diseases
history and current developments, 353
Influenza
therapy with rimantadine, double-blind study, 328-335
viruses, isolation from patients with bacterial pneumonia, 44-51
Interferon
status of current studies of, 73-74

Intestinal Diseases, Parasitic
in patient with zinc deficiency, retarded growth, hypogonadism and hypogammaglobulinemia, 305-319
Intestines
proximal duodenal biopsy, findings, 90-99
rat ascending colon preparation for bioassay of renin activity, 344-351
valine uptake by jejunal mucosa from normal and obese subjects, 234-241
Iodine Isotopes see also Serum Albumin, Radio-Iodinated
random dosage in therapy of goiter and hyperthyroidism, 382-387
thyroid uptake in normal subjects, effect of diazepam on, 388-394
Isoproterenol
effect on total and effective coronary blood flow of rubidium-84, 203-217

K

Kidney
pathological effects of laser irradiation in mice, 242-252
Kidney Diseases see also Acute Renal Failure
monoclonal serum M-components in patients with, 275-293
structural basis of, 274
Klebsiella
isolation from pneumonia patients, role of viruses and mycoplasmas, 44-51
Klebsiella Infections
carbenicillin therapy of, 408-414

L

Lactates
production by cartilage in vitro in presence and absence of hyaluronidase, 198-201
Laser
pathological effects on internal viscera of mice, 242-252
Leukemia
carbenicillin pharmacological studies in patients with, 185-190
microbial contamination of skin surface in patients in patient isolator units, assessment technique, 100-115
Lidocaine
therapy of ventricular arrhythmias in acute myocardial infarction, 52-60
Lipid Metabolism
in patient with congenital aneurysm of coronary artery with myocardial infarction, 320-327
Liver
pathological effects of laser irradiation in mice, 242-252
Liver Cirrhosis
with ascites, source of albumin in thoracic duct lymph in, 32-43
Lung
pathological effects of laser irradiation in mice, 242-252
Lung Diseases see also Pneumonia; Pulmonary Emphysema
monoclonal serum M-components in patients with, 275-293
Lymph
albumin content and source in thoracic duct in portal hypertension with ascites, 32-43

M

Macroglobulinemia
serial ultracentrifugal analyses of sera during therapy of, 177-184
Malabsorption Syndromes
therapy with medium chain triglycerides, 75-80
Medicine
recent advances, 72
uses of radioisotopes in, 352
Meningitis
caused by Paracolobactrum, therapy with gentamicin, 191-197
cephalothin and lincomycin therapy, serum and CSF levels, 125-131
Mitral Valve Stenosis
vital capacity immediately after exercise in, 365-369
Monkeys
fluctuations in serum cholesterol levels in, 24-31
Mortality
urban-rural differences in ischemic heart disease mortality in Iceland, 253-258
Mycoplasma
isolation from pneumonia patients, 44-51
Myocardial Depressants
lidocaine therapy of ventricular arrhythmias in acute myocardial infarction, 52-60
Myocardial Infarct
ventricular arrhythmia in, therapy with lidocaine, 52-60
ventricular performance evaluation in dogs with, 61-71
with congenital aneurysm of coronary artery, 320-327
Myocardium
ATP levels of isolated rat heart, relation to ECG recording, 218-227
blood flow after coronary arteriography, 228-233
contractility, changes during injection of angiocardiographic contrast media in dogs, 81-89

N

Neoplasms
metastases, carbenicillin pharmacological studies in patients with, 185-190
monoclonal serum M-components in patients with, 275-293

Nicotine
effect on total and effective coronary blood flow of rubidium-84, 203-217
Norepinephrine
effect on total and effective coronary blood flow of rubidium-84, 203-217
Nutrition
in health and disease, 153

O

Obesity
valine uptake by jejunal mucosa from obese subjects, 234-241

P

Pancreas
glucagon secretion in normal and diabetic subjects, 415-419
Pancreatitis
pancreatic glucagon secretion in, 415-419
Paracolobactrum Infections
epidural abscess and meningitis, therapy with gentamicin, 191-197
Patient Isolators
microbial contamination of skin surface in leukemia patients in, 100-115
Peritoneal Dialysis
effect on serum levels of cephalothin and cephaloridine in chronic uremia, 116-124
Pheochromocytoma
hypertension and hemodynamics in, 9-23
Physiology
human, textbook of, 354
Pneumonia
combined role of viruses, mycoplasmas and bacteria in pathogenesis of, 44-51
Prednisone
therapy of macroglobulinemia, ultracentrifugal analysis of serum during, 177-184
Protein-Bound Iodine Test
effect of diazepam in normal subjects on, 388-394
Pseudomonas Infections
carbenicillin therapy of, 408-414
Puberty
onset in 21-yr. old male after treatment of zinc deficiency, intestinal parasites and hypogammaglobulinemia, 305-319
Puerperal Disorders
fatal late postpartum intravascular coagulation with acute renal failure, 259-273
Pulmonary Emphysema
in vitro quantitation of lung destruction in, comparison of 4 methods, 171-176

R

Radioisotopes see also Iodine Isotopes; Rubidium Isotopes
use in medicine, 352
Renin
bioassay using rat ascending colon, 344-351
plasma activity in pregnant women, 155-163
Respiratory Function Tests
at exercise breaking point in cardiac patients, 370-381
single breath carbon dioxide washout test, 140-151
vital capacity immediately after exercise in mitral stenosis patients, 365-369
Rheomacrodex see Dextran
Rheumatoid Factor
determination in cryoglobulinemic sera, 294-304
Rubidium Isotopes
in determination of effective and total coronary blood flow, 203-217

S

Serratia Infections
carbenicillin therapy of, 408-414
Serum Albumin, Radio-Iodinated
transfer into thoracic duct lymph in portal hypertension with ascites, 32-43
Skin
microbial contamination of total body surface, assessment in leukemia patients in patient isolator units, 100-115
Somatotropin
plasma levels in acromegaly, 1-8
Spleen
pathological effects of laser irradiation in mice, 242-252
Steroids
conjugates, physical properties of, 153
Stomach see also Gastric Secretion
validation of dextran blue as dilution indicator in, 164-170
Streptococcal Infections
therapy by cephalothin, cephaloridine, cephalexin and cephaloglycin, comparison in monkeys, 395-407
Surgery
in aged and debilitated patients, 202

T

Thoracic Diseases
non-tuberculous, 72-73
Thoracic Duct
lymph albumin content and source in portal hypertension with ascites, 32-43
Thyroid Gland see also Goiter; Hyperthyroidism; hypothyroidism
function in normal subjects, effect of diazepam on, 388-394
Thyroxine
blood levels in euthyroid subjects, effect of diazepam on, 388-394
Triglycerides
medium chain, properties and potential uses of, 75-80

Triiodothyronine
blood levels in euthyroid subjects, effect of diazepam on, 388-394

U

Uremia
comparative pharmacodynamics of cephalothin and cephaloridine in, 116-124

V

Valine
uptake by jejunal mucosa from normal and obese subjects, 234-241

Virus Diseases
role in development of bacterial pneumonia, 44-51

W

Wilson's Disease see Hepatolenticular Degeneration

Z

Zinc Deficiency
in patient with retarded growth, hypogonadism, hypogammaglobulinemia and intestinal parasites, 305-319

SUBJECT INDEX

A

Adenyl Cyclase
  activity in various areas of brain of man, monkey and rat, 190-202
Adolescence
  drug abuse in, pharmacological and epidemiological aspects, 218
Aging
  influence on chromosomal alterations in leukocytes from human females, 26-34
Alcoholism
  alcoholic cardiomyopathy, ultrastructure of myocardium in, 304-327
  increased rate of clearance of drugs from circulation in, 35-39
  intestinal absorption and metabolism of mannitol in men with, 80-88
Alkylating Agents see Antineoplastic Agents
Amino Acids
  chemistry of, 63
Aminophylline
  effect on phosphodiesterase activity of rat brain homogenates, 190-202
Amphicol see Antibiotics
Ampicillin see Antibiotics
Anemia
  Coombs' positive hemolytic anemia, in myelofibrosis with myeloid metaplasia, 89-93
  iron-deficiency, pernicious, and primary refractory anemias, endogenous carbon monoxide production and relation to total heme mass in, 374-385
Antibiotics
  ampicillin and kanamycin alone and together, bactericidal activity on E. coli, Enterobacter-Klebsiella, and Proteus, 7-13
  chloramphenicol absorption and excretion in man after oral administration, 203-208
  Chloromycetin and Amphicol, comparative absorption and excretion in man after oral administration, 203-208
  effects on Group D Streptococcus in vitro, 416-430
  synergistic and antagonistic activities of combinations on bacteria, 7-13
Anticoagulants
  in prevention of thrombosis, 1-6
  warfarin, increased clearance from circulation of alcoholics, 35-39
Anti-infective Agents
  proceedings of conference on, 137
Antimetabolites see Antineoplastic Agents
Antineoplastic Agents
  toxicity in human patients, 245-259
Arm
  blood flow in chronic obstructive airway disease, 52-58
Arthritis, Rheumatoid
  serum and synovial fluid muramidase levels in, 405-415
Autoimmune Diseases
  Coombs' hemolytic anemia in myelofibrosis with myeloid metaplasia, 89-93

B

Bacteria
  causing opportunistic infections, review of, 431-456
Bacteriuria
  in noninfectious renal diseases, 230-236
  rapid screening with dip stick test, 214-217
Behavior
  study by depth electrode stimulation of human brain, 134-135
Biochemistry
  of amino acids, peptides and proteins, 63
Biophysics
  techniques in study of cell biology, 135-136
Blood
  Chloromycetin and Amphicol levels after oral administration in man, 203-208
  cholesterol levels, role in coronary artery disease, 371-373
  cholesterol, triglyceride and free fatty acid variability in maturity-onset diabetics, 114-120
  glucose levels, variability in maturity-onset diabetics, 114-120
  iron levels in human volunteers with tularemia, 14-25
  lipid levels, effect of drug-induced reduction on serum tocopherol levels, 275-281
  muramidase levels, diagnostic value in various diseases, 405-415
  testosterone binding affinity in human females and males, 270-274
  tocopherol levels, effect of drug-induced reduction of serum lipids on, 275-281
  triglyceride levels in type IV and type V hyperlipoproteinemias, 121-133
Blood Circulation
  arm blood flow in chronic obstructive airway disease, 52-58
  collateral circulation in clinical surgery, 282-283

Blood Platelets
effect of drugs on behavior of, role in preventing myocardial infarction, 1-6
Blood Pressure see also Hypertension
during rest and exercise in normal subjects, 70-79
effect of chronic lead intoxication in rat on, 359-365
Body Weight
variability in maturity-onset diabetics, 114-120
Bone and Bones
fundamentals of physiology of, 284
Bone Marrow Diseases
endogenous carbon monoxide production and relation to total heme in, 374-385
Brain
adenyl cyclase and phosphodiesterase activities in various areas of man, monkey and rat, 190-202
depth electrode stimulation in humans, 134-135

C

Carbon Monoxide
endogenous production, relation to total heme mass in normal and abnormal subjects, 374-385
Carotid Artery
pulse in, fidelity of external recording of, 40-51
Catecholamines
role in acute myocardial infarction, 139-143
Cell Biology
biophysical techniques in study of, 135-136
Cerebrospinal Fluid
muramidase levels, diagnostic value in various diseases, 405-415
Chloramphenicol see Antibiotics
Chloromycetin see Antibiotics
Cholera
experimental, unidirectional Na flux in small intestine in dogs in, 340-350
Cholesterol see also Hypercholesteremia
blood level variations in maturity-onset diabetics, 114-120
blood levels, role in coronary artery disease, 371-373
Chromosomes
alterations in cultured leukocytes from human females in 3 age groups, 26-34
Clofibrate
treatment of hyperlipoproteinemias, effect on serum lipid and tocopherol levels, 275-281
Contraceptives, Oral
effect on testosterone binding affinity of serum in women, 270-274
Coombs' Test
positive, in myelofibrosis with myeloid metaplasia, 89-93
Coronary Disease see also Myocardial Infarct
prevention of, 67-69
therapy of, 371-373
ultrastructure of myocardium in, 304-327

D

Diabetes Mellitus
maturity-onset diabetics, variability in blood cholesterol, triglycerides, free fatty acids, glucose and body weight in, 114-120
Diagnosis, Laboratory
textbook of, 218
Diarrhea
mechanism of production in experimental cholera in dogs, 340-350
Diet
in management of renal failure, 134
therapy of maturity-onset diabetics, variability in blood chemicals and body weight in, 114-120
Digoxin
site of renal excretion of, 181-189
Diphenylhydantoin
increased rate of clearance from circulation of alcoholics, 35-39
Diphtheria Antitoxin
titers in hospital workers after single dose of diphtheria-tetanus toxoid, 209-213
Diphtheria Toxoid
diphtheria-tetanus toxoid, diphtheria antitoxin titers in hospital workers after single dose of, 209-213
Disease
world health problems, symposium on, 134
Dopamine
causing increased renal clearance of phenobarbital and salicylate in dogs, 351-358
Drug Abuse
among adolescents, pharmacological and epidemiological aspects, 218
Drug Therapy
antimicrobial agents and chemotherapy, 137

E

Electric Stimulation
in study of human brain function and behavior, 134-135
Embryology
of humans, 63-64
Endocrine Diseases
outline of endocrine gland syndromes, 136-137
Energy Metabolism
alterations in congestive heart failure, 328-339
Enterobacteriaceae
bactericidal activity of ampicillin and kanamycin alone and together on, 7-13
Enzymes see also Adenyl Cyclase; Isoenzymes; Muramidase; Phosphodiesterase
localization in intestinal brush border, 144-149
Epinephrine
role in acute myocardial infarction, 139-143
Erythrocytes
anisocytosis in chronic pulmonary disease, 394-404

Escherichia coli
bactericidal activity of ampicillin and kanamycin alone and together on, 7-13
Exercise
effects on hemodynamics in mild arterial hypertension, 70-79

F

Fatty Acids
free blood levels, variability in maturity-onset diabetics, 114-120
H^3-palmitate, fate after ingestion in type IV and type V hyperlipoproteinemias, 121-133

G

Gastrointestinal System
toxicity of antitumor drugs in human patients, 245-259
Glucagon
role in cardiac therapy, 224-229
Glucosamine
incorporation into polysaccharides of small intestine surface coat, 172-180
Glucose
binding to intestinal brush border, 144-149
blood levels, variability in maturity-onset diabetics, 114-120
intestinal absorption of, in experimental cholera in dogs, 340-350
Glycoproteins
synthesis in surface coat of small intestines, 172-180
Glycosuria
correlation with bacteriuria using dip stick test, 214-217

H

Heart see also Myocardium
cardiotonic action of glucagon, 224-229
rate and output at rest and during exercise in mild hypertension, 70-79
stroke volume, estimation by thoracic impedance plethysmography, 100-113
ultrastructure of normal heart, 304-327
Heart Diseases see also Coronary Disease; Myocardial Infarct
alcoholic cardiomyopathy, ultrastructure of myocardium in, 304-327
experimental ventricular hypertrophy, altered heart performance in, 291-303
role of glucagon in therapy of, 224-229
thoracic impedance plethysmography as index of stroke volume in, 100-113
Heart Failure, Congestive
alterations in energy metabolism in, 328-339
altered heart performance in, 291-303
biochemical and physiological observations in, 328-339
defect in excitation-contraction coupling in, 328-339
ultrastructure of myocardium in, 304-327
ventricular performance in, 287-290
Heart Transplantation
allograft rejection in dogs indicated by in vitro transformation of peripheral lymphocytes, 59-62
Hematopoietic System
toxicity of antitumor drugs in human patients, 245-259
Heme
total heme mass in normal and abnormal subjects, relation to endogenous carbon monoxide production, 374-385
Hemodynamics
in mild hypertension during exercise and at rest, 70-79
response to lidocaine in experimental myocardial infarction, 260-269
Hemoglobinuria, Paroxysmal Nocturnal
endogenous carbon monoxide production and relation to total heme mass in, 374-385
Hepatitis
experimental viral hepatitis, 283
mouse hepatitis viruses, 283
Hyperbilirubinemia
endogenous carbon monoxide production and relation to total heme in, 374-385
Hypercapnia
effect on arm blood flow in chronic obstructive airway disease, 52-58
Hypercholesteremia
drug therapy of, effect on serum tocopherol levels, 275-281
Hyperlipoproteinemias
drug therapy of, effect on serum tocopherol levels, 275-281
fate of ingested H^3-palmitate in, 121-133
Hypertension
failure to induce by chronic lead intoxication in rats, 359-365
hemodynamics at rest and during exercise in mild cases of, 70-79
Hyperthyroidism
symposium on, 136
testosterone binding affinity of serum in human females and males in, 270-274
Hypertriglyceridemia
drug therapy of, effect on serum tocopherol levels, 275-281
Hypoxemia
effect on arm blood flow in chronic obstructive airway disease, 52-58

I

Infection
caused by normal flora of host, 431-456
chemotherapy of, 137
Intestinal Absorption
function of brush border in, 144-149
morphologic and functional correlates of intestinal brush borders in, 150-171
of Chloromycetin and Amphicol after oral administration in man, 203-208
of mannitol in man, 80-88
of Na and glucose in experimental cholera in dogs, 340-350

Intestines
brush border as digestive and absorptive surface, 144-149
brush border, histology and function of, 150-171
polysaccharide synthesis in surface coat of, 172-180
unidirectional Na flux in, in experimental cholera in dogs, 340-350
Iron
binding to intestinal brush border, 144-149
metabolism in tularemia in human volunteers, 14-25
Isoenzymes
in biology and medicine, 284-285

J

Jaundice
caused by prolonged therapy with long-acting nicotinic acid, 94-99
Jugular Vein
pulse in, fidelity of external recording of, 40-51

K

Kanamycin see Antibiotics
Kidney
clearance of phenobarbital and salicylate, increase by dopamine infusions in dogs, 351-358
comparative excretion of Chloromycetin and Amphicol in man, 203-208
function of, study by micropuncture techniques, 282
glomerular pathology, correlation with selectivity index in heavy proteinuria, 386-393
increased rate of clearance of drugs in alcoholics, 35-39
site of excretion of H^3-digoxin by, 181-189
Kidney Diseases
noninfectious renal disease, bacteriuria in, 230-236
nutritional and metabolic aspects of, 134
Klebsiella
bactericidal activity of ampicillin and kanamycin alone and together on, 7-13

L

Lead Intoxication
chronic, effect on blood pressure in rats, 359-365
Leukemia, Lymphocytic
lymphocyte kinetics in patients with, 237-244
serum and urine muramidase levels in, 405-415
Leukocytes
from human females in 3 age groups, chromosomal alterations in, 26-34
Lidocaine
hemodynamic effects in experimental myocardial infarction, 260-269
Lipids
serum levels, effect of drug-induced reduction on serum tocopherol levels, 275-281
Liver
activity of Cr^{51}-labeled lymphocytes in normal humans in, 237-244
Liver Diseases
cirrhosis, intestinal absorption and metabolism of mannitol in men with, 80-88
fibrosis after prolonged therapy with long-acting nicotinic acid, 94-99
Lung Diseases
chronic airway obstruction, arm blood flow in, 52-58
chronic pulmonary disease, anisocytosis in, 394-404
obstructive, Zone I and Zone II phenomena in, 219-223
Lymphatic System
review of anatomy, physiology and diseases of, 137-138
Lymphocytes
circulation of, study in humans with normal leukocyte counts, 237-244
in vitro transformation to blast cells indicating heart allograft rejection in dogs, 59-62
Lysozyme see Muramidase

M

Macroglobulinemia
serum and urine muramidase levels in, 405-415
Mannitol
intestinal absorption and metabolism of, in man, 80-88
Menstruation
effect on testosterone binding affinity of serum in women, 270-274
Microbiology
essays in, 137
textbook of, 64
Micropuncture
techniques in study of kidney function, 282
Microscopy, Electron
of intestinal brush borders, 150-171
of normal myocardium and of failing myocardium, 304-327
Multiple Myeloma
serum and urine muramidase levels in, 405-415
Muramidase
determination in body fluids, diagnostic value on various diseases, 405-415
Mycoses
opportunistic infections, review of, 431-456
Myelofibrosis
with myeloid metaplasia, positive Coombs' test in, 89-93
Myeloid Metaplasia
with myelofibrosis, positive Coombs' test in, 89-93
Myocardial Infarct
circulatory response to lidocaine in dogs in, 260-269
drugs for prevention of, 1-6
role of catecholamines in, 139-143

Myocardium
altered performance in hypertrophied and failing hearts, 291-303
cellular properties of, in congestive heart failure, 287-290
normal and failing myocardium, electron microscopy of, 304-327
protein synthesis in normal myocardium and in failing myocardium, 328-339

N

Neoplasms
antitumor drug toxicity in human patients, 245-259
Nervous System
growth of, symposium on, 63
Nicotinic Acid
prolonged therapy with, causing liver fibrosis, 94-99
Norepinephrine
role in acute myocardial infarction, 139-143
Nutrition
aspects of renal failure, 134

O

Oxygen Consumption
in mild arterial hypertension, 70-79

P

Palmitate see Fatty Acids
Pathology
clinical pathology, textbook of, 218
Pediatrics
introductory textbook, 285
Peptides
chemistry of, 63
Phenobarbital
increased renal clearance of, induction by dopamine in dogs, 351-358
Phosphodiesterase
activity in various areas of brain of man, monkey and rat, 190-202
Physiology
textbook of, 284
Plethysmography
thoracic impedance plethysmography, as index of stroke volume in man, 100-113
Polysaccharides
synthesis in surface coat of small intestines, 172-180
Pregnancy
serum muramidase levels in, 405-415
testosterone binding affinity of serum in women in, 270-274
Proteins see also Glycoproteins; Hyperlipoproteinemias
chemistry of, 63
synthesis in normal myocardium and in hypertrophied and failing myocardium, 328-339
Proteinuria
selectivity index as guide to therapy of, 386-393
Proteus
bactericidal activity of ampicillin and kanamycin alone and together on, 7-13
Public Health
world health problems, symposium on, 134
Pulmonary Circulation
Zone I and Zone II phenomena in obstructive lung disease, 219-223
Pulse
in jugular vein and common carotid artery, fidelity of external recording of, 40-51
Pyelonephritis
in patients with primary noninfectious renal disease, 230-236

R

Respiratory Diseases see Lung Diseases

S

Salicylates
increased renal clearance of, induction by dopamine in dogs, 351-358
Serotonin
survey of, 282
Sodium
unidirectional flux in small intestine in experimental cholera in dogs, 340-350
Species Differences
in susceptibility of strains of Group D Streptococcus to various antibiotics in vitro, 416-430
Spherocytosis, Hereditary
endogenous carbon monoxide production and relation to total heme mass in, 374-385
Spleen
activity of Cr^{51}-labeled lymphocytes in normal humans in, 237-244
Stop-flow Technique
in localization of renal excretion of H^3-digoxin, 181-189
Streptococcus
group D, susceptibility to various antibiotics in vitro, 416-430
SU-13437
treatment of hyperlipoproteinemias, effect on serum lipid and tocopherol levels, 275-281
Surgery, Operative
collateral circulation in clinical surgery, 282-283

T

Testosterone
binding affinity of serum in human females and males, 270-274
Tetanus Toxoid
diphtheria-tetanus toxoid, diphtheria antitoxin titers in hospital workers after single dose of, 209-213
Tocopherols see Vitamin E
Tolbutamide
increased rate of clearance from circulation of alcoholics, 35-39

Transplantation, Heterologous
heart allograft rejection in dogs, in vitro transformation of peripheral lymphocytes in, 59-62
Triglycerides see also Hypertriglyceridemia
blood level variations in maturity-onset diabetics, 114-120
blood levels in type IV and type V hyperlipoproteinemias, 121-133
Tularemia
in human volunteers, effect on iron metabolism, 14-25

U

Urinary Tract Infections
rapid screening for bacteriuria with dip stick test in, 214-217
Urine
catecholamine excretion in acute myocardial infarction, 139-143
muramidase levels, diagnostic value in various diseases, 405-415

Chloromycetin and Amphicol levels and metabolites after oral administration in man, 203-208

V

Vaccination
against tularemia in human volunteers, effect on iron metabolism, 14-25
Virus Diseases
opportunistic infections, review of, 431-456
Viruses
introduction to virology, 283-284
Vitamin B_{12}
binding to intestinal brush border, 144-149
Vitamin E
serum levels, effect of drug-induced decrease in serum lipids on, 275-281

W

Warfarin see Anticoagulants
